Career Objective

Results-driven **Mobile App Developer with 3+ years of experience in React Native**, specializing in architecting and scaling high-impact mobile solutions. Proven track record of developing features for applications that have collectively reached **over 2 million downloads**. Seeking to leverage technical expertise and leadership skills to drive the development of innovative, user-centric mobile solutions.

Skills

Languages: JavaScript, TypeScript, Kotlin, C, C++, Bash

Frontend: React Native, React JS, Redux, Context API, MMKV, Android SDK, HTML5, CSS3, Bootstrap

Database: SQLite, PouchDB, Firebase, SQL, MySQL

Tools & Technologies: SQLite, PouchDB, Firebase, Android Studio, xCode, VS Code

Experience

ASF Tech Partners

Karachi, Pakistan (Hybrid)

React Native Developer

November 2024 - July 2025

- Delivered a high-quality user experience for **over 1.2 million users** by developing and optimizing core features of the **Deen App**(Google Play, App Store). This included creating a robust system for **multi-language Quran downloads and offline playback**, significantly enhancing accessibility and user retention.
- **Expanded the app's global reach and market relevance** by implementing multi-language support for **24+ languages** with **Right-to-Left (RTL) layout handling**. Additionally, integrated a new **Indo-Pak Quran text style**, providing users with a choice between Madina and Indo-Pak formats.
- Optimized application performance by **debugging and fixing multiple critical bugs**, leading to a substantial reduction in crashes related to GPS, search functionality, and camera features.
- **Managed the deployment process for iOS and Android**, managing version control and ensuring seamless delivery of new features and over-the-air (OTA) updates.

Enterprise Team

Karachi, Pakistan (Hybrid)

Software Engineer

June 2022 - November 2024

- Created a comprehensive **lawyer case management system** for a national bank, **reducing manual processing time from one week to 15 minutes**. This system enhances case organization, **enables real-time to offline status sharing via network**, provides a secure data storage system using **Base64**, and **streamlines scheduling and efficient evidence and document management**. The system was **built using React Native, Redux, and SQLite**.
- Led the development of a **farmer-centric app** using React-Native, Laravel and Redux. Empowered farmers to efficiently **manage land, access loans, and record agricultural data**, while ensuring accessibility through features like **weather control, water level alerts, disaster management and loan management**.
- Gained extensive experience in developing complex applications, implementing **secure data storage, user authentication, push notifications, and real-time updates**. Leveraged React Native and Laravel to create cross-platform solutions, enhancing both user experience and performance.

HashPotato

Karachi, Pakistan (On-Site)

React Native Developer (Part-time)

July 2021 - November 2021

- Designed and optimized the **React Native UI/UX for a course management app**, integrating APIs to support key features.
- Developed new features including **video calls, scheduling, and quizzes**, significantly enhancing student engagement.

Projects

Digital Driving School App

- Led the development of the **Digital Driving Classes app** using React Native, connecting users with professional drivers and offering features such as **map logs, quiz, scheduling, price Negotiating and a course marketplace** to enhance the user experience.
- Utilized a diverse tech stack, including **Pusher, Google Maps API for log tracking, Redux for state management, Geolocation for location-based services, and Async-Storage**, resulting in a robust and feature-rich application.

Education

FAST National University

Karachi, Pakistan

Bachelors in Computer Science

Aug 2018 - Jun 2022

Relevant Courses: OOP, Data Structure, Operating System, Design and Analysis of Algorithm, Software engineering, DBMS, Cloud Computing, Fundamental of Software Project Management
